

Type of backing

Black backing will be used for dark (black, heather black, navy, etc) zippered apparel. The backing colour will vary for intermediary coloured zippered apparel (red, blue, green, etc). White backing will be used for all other garments.

The type of backing will vary according to the type of embroidery and apparel. We prefer the use of tear away backing (easier to take off and quickly removes when washing). However, some embroideries and/or materials require standard backing (partial removal of the backing, stays in place when washed).

Type of peeling

Standard peeling (Standard and tear away backing)

- Good price-quality ratio
- No additional cost
- Standard peeling includes a quick, partial, removal of the tear away backing or trimming of the standard backing

Deluxe peeling (Tear away backing only)

- Superior quality finish
- Additional costs apply
- Deluxe peeling includes an almost complete removal of the backing
- Please note that the backing will not be removed from areas such as letter centers.
