Eliminate uncertainty by having your apparel manufactured and decorated under one roof. ATTRACTION controls the entire production process in our North American factory. From design to delivery, we use multiple decoration techniques with state-of-the-art equipment.

Your satisfaction and local development

Our "one-stop shop" allows for optimal order coordination assuring you and your client's satisfaction. This also creates, in our community, a wide variety of safe, quality jobs that are accessible to all, in an inclusive, friendly, family business that is respectful to its employees as well as the environment.

100% North American, ethical & comfortable

Showcase your ethical nature. Our exclusive Ethica brand is the result of experience accumulated since ATTRACTION was founded in 1980, modernized and supported by the latest trends.

Designed, made and decorated in Quebec, Canada by our unionized teams, Ethica clothing is made from fine gauge Jersey using GOTS-certified organic cotton and recycled polyester. Tightly knit and smooth, the Ethica brand is comfortable, silky soft and perfect for decoration.

By purchasing the Ethica brand you're helping the environment, as one t-shirt using recycled polyester is the equivalent of six bottles of plastic that would have otherwise been destined to landfills. Ethica clothing can be worn proudly, as it showcases your image and your values!
