

Global Organic Textile Standard (GOTS) is recognized as the world's leading processing standard for textiles made from organic fibers.

## What are the main criteria for getting GOTS certification?

-  Textile products containing a minimum of 70% of organically grown fiber
-  All chemical inputs used, such as dyes and auxiliaries must meet environmental and toxicological criteria
-  A functioning wastewater treatment plant is mandatory
-  A quality assurance system must be in place as well as principles for the review, revision and accessibility of data
-  Targets and procedures must be in place to reduce energy and water consumption per kg of textile produced
